

PURE SUNFARMS™

Supply Chain Planner

Pure Sunfarms is a vertically integrated, large-scale, low-cost supplier of high-quality cannabis to the Canadian adult recreation market, headquartered in Delta, BC. As a 50/50 joint-venture of Village Farms and Emerald Health Therapeutics, Pure Sunfarms is backed by one of North America's leaders in high-tech greenhouse growing.

We are trail blazing this industry with some serious clout – and by serious, we mean a 30-year track record of operating mega-scale greenhouses. We are led by a team of seasoned executives along with a team of cultivation experience from around the world. Let's just say - we are building and operating on a whole new level.

As a **Supply Chain Planner**, you snug as a bug when it comes to organizing and planning the different stages of cannabis production. You're an ambitious busy bee with solid organizational skills and tenacious attention to detail.

ESSENTIAL FUNCTIONS

- Develop and maintain a supply forecast plan based on business trends, growing operations and business requirements;
- Compile detailed view of issues, lead corrective actions & escalate roadblocks for prompt resolution;
- Manage an optimum inventory level and ensure it is maintained to meet or exceed customer order fill rates;
- Optimize inventory while maintaining high service level at all locations;
- Identify and resolve supply exceptions by expediting purchase orders, re-allocating existing inventory and establishing safety stock parameters;
- Work with Procurement team to understand and react to forecast accuracy challenges;
- Analyze and communicate business trends, gaps and opportunities with business partners by providing data to reach effective decisions;
- Support and implement Supply Chain best practices and efficiency improvements to ensure utilization of best methods in the development of forecasts, and material plans;
- Has a good understanding of related supply chain processes and the downstream effects demand planning has on them;
- Coordinate cross-functional research activities to reconcile forecast variances and refine the forecast model to reflect the current state;
- Identify, discuss and summarize risks and opportunities for short and long terms gaps and provide mitigation plans within Supply Chain and Operations Teams;

- Demonstrates initiative to identify improvement opportunities that impact operations;
- Assist in defining, standardizing and implementing demand planning best practices and business processes across the organization.

OTHER DUTIES

We are essentially a start-up, rolling up our sleeves to build something bigger than ourselves. Other duties may arise from time to time/most of the time and as a team, we look to support each other.

YOUR BRAND AND STORY
