

PURE SUNFARMS™

Extraction Technician

Pure Sunfarms is a vertically integrated, large-scale, low-cost supplier of high-quality cannabis to the Canadian adult recreation market, headquartered in Delta, BC. As a 50/50 joint-venture of Village Farms and Emerald Health Therapeutics, Pure Sunfarms is backed by one of North America's leaders in high-tech greenhouse growing.

We are trail blazing this industry with some serious clout – and by serious, we mean a 30-year track record of operating mega-scale greenhouses. We are led by a team of seasoned executives along with a team of cultivation experience from around the world. Let's just say - we are building and operating on a whole new level.

Here is where you come in as the Extraction Technician: you will be the key person of the phenomenon of extraction, as well as documenting and collecting the samples.

ESSENTIAL FUNCTIONS

- This Operating highly sophisticated extraction equipment to process concentrates and extracts
- Sanitation, cleaning and maintenance of extraction equipment and facility
- Maintain batch production records in accordance with standard operating procedures
- Monitor instruments such as temperature or pressure gauges, indicators, or meters to ensure optimal processing conditions
- Maintaining strict inventory records of raw materials, chemicals and equipment
- Recording all pertinent details related to extraction processes
- Managing materials and consumables and improving on or developing safety guidelines for equipment use
- Maintaining inventory records of supplies, materials and equipment as needed
- Handling pressurized gas/liquid cylinders
- Handling solvent drums and containers
- Safe handling of hazardous and high pressure materials
- Comply with Good Production Practices (GPP) and Good Manufacturing Practices (GMP) protocol and regulations
- Ensure safe operation of all equipment and site, including pressure vessels
- Coordinate with managers to design, set and implement manufacturing schedule based off of current product demands

- Establish and maintain equipment files to include any qualification/commissioning documents, repair or modification history, preventive maintenance and calibration records.

We work in a fast pace environment, rolling up our sleeves to build something bigger than ourselves. Other duties may arise from time to time; most of the time and as a team, we look to support each other.

YOUR BRAND, YOUR STORY

We already know you love performing extraction and working with sophisticated machinery, but we want to know more about your strengths. Your qualifications include the following:

- Diploma or degree in chemistry/biochemistry, chemical/process engineering or related sciences is considered an asset
