

PURE SUNFARMS™

Validation Specialist

Pure Sunfarms is a vertically integrated, large-scale, low-cost supplier of high-quality cannabis to the Canadian adult recreation market, headquartered in Delta, BC. As a 50/50 joint-venture of Village Farms and Emerald Health Therapeutics, Pure Sunfarms is backed by one of North America's leaders in high-tech greenhouse growing.

We are trail blazing this industry with some serious clout – and by serious, we mean a 30-year track record of operating mega-scale greenhouses. We are led by a team of seasoned executives along with a team of cultivation experience from around the world. Let's just say - we are building and operating on a whole new level.

Here is where you come in as a Validation Specialist. You will support, drive and monitor all validation and qualification aspects for Pure Sunfarms.

ESSENTIAL FUNCTIONS

- Perform qualification and validation of equipment, utilities, facilities, methods, software and processes with the focus on cGMP compliance
- Develop the validation master plan; coordinating with the manufacturing, quality and engineering teams through the creation of a cross-functional committee
- Document and support all validation and qualification activities; protocol development, execution and summary reports
- Follow-up with CAPA resolution
- Through validation and qualification, provide insights into continuous improvement
- Assist with developing standard measurements for processes to be compared against
- Write standard operating procedures (SOPs)
- Assist with training staff
- Other duties as required

We are essentially in start-up phase, rolling up our sleeves to build something bigger than ourselves. Other duties may arise from time to time; most of the time and as a team, we look to support each other according to our 5 core values (humility, empathy, accelerate, reliability and team).

YOUR BRAND YOUR STORY

We already know you love working with quality control, but we want to know more about your strengths. Your qualifications include the following:

- Technical Diploma, Bachelor of Science or relevant degree in the biological, food, biochemical or chemical sciences with 1-2 years of direct validation experience in a food, pharma or natural health product GMP regulated consumer products industry
- Familiar with Health Canada's GMP
- Strong attention to details
- Good technical writing skills
- Ability to adapt quickly to changing business requirements
- Ability to act with minimal supervision
- Highly team oriented with excellent good communication skills (written and verbal)
- Excellent problem-solving skills with an analytical mindset
- Ability to work with and utilize multiple software tools
- Must have the ability to obtain and pass a RCMP Criminal Record Check and maintain security clearance
