

## WHO WE ARE

At Pure Sunfarms, putting plants and people first is at the heart of what we do every day.

<b>HUMILITY</b>	We act with kindness and respect
<b>EMPATHY</b>	We seek to understand and gain perspective
<b>ACCELERATE</b>	We move quickly with intention
<b>RELIABLE</b>	We deliver on our promises
<b>TEAM</b>	We support each other and achieve together

Driven by a love of plants, Pure Sunfarms produces high-quality, BC-grown cannabis for the Canadian recreational market. Our deep farming roots combined with a legacy of cannabis cultivation and knowledge of growing at scale guides our uncompromising approach to quality.

We select our strains based on flavour, potency, and their ability to thrive in our sunlight-filled, 1.1 million square foot high-tech greenhouse in Delta, British Columbia. Our cultivation team has collected detailed sunlight and environmental information at this location in BC's Fraser Valley for more than a decade, which gives us an incredible depth of knowledge to adjust our cultivation practices on a plant-by-plant basis.

We use a modern growing approach which allows for the control of heat, light, and energy the sun brings to maximize the potency potential of our plants. In this very precise environment, cannabis flourishes; sectioned into growing rooms that let us nurture plants at each stage of development differently through app-based monitoring. This way, our hands-on growing team can ensure our plants get exactly what they need to produce consistent and aromatic quality cannabis, grown with care, all year round.

## FAST FACTS

- Pure Sunfarms was established in 2017 as a joint venture between Village Farms International, Inc. and Emerald Health Therapeutics Inc.
- Pure Sunfarms is one of Canada's largest, single-site, licensed producers of greenhouse-grown cannabis with capacity to produce 75,000 kilograms of dried flower annually.
- The company's dried flower cultivar portfolio includes Pink Kush, D. Bubba, Afghan Kush, Critical Kali Mist, Headband, Island Honey, Pure Sun CBD, and White Rhino in 1g, 3.5g and 7g formats.\*

**PINK KUSH**  
INDICA  
HIGH THC • LOW CBD

**D. BUBBA**  
INDICA  
HIGH THC • LOW CBD

**AFGHAN KUSH**  
INDICA  
HIGH THC • LOW CBD

**CRITICAL KALIMIST**  
SATIVA  
HIGH THC • LOW CBD

**ISLAND HONEY**  
SATIVA  
HIGH THC • LOW CBD

**HEADBAND**  
HYBRID  
HIGH THC • LOW CBD

**PURE SUN CBD™**  
HYBRID  
HIGH CBD • LOW THC

**WHITERHINO**  
INDICA  
HIGH THC • LOW CBD

- Afghan Kush, Critical Kali Mist, Headband, Island Honey, and White Rhino are also featured in 0.5g single-strain pre-rolls that come in packs of three.\*
- Pure Sunfarms offers 1 oz and ½ oz large format dried flower product available in Indica, Sativa, and Hybrid varieties.\*
- Current supply agreements include the Ontario Cannabis Retail Corporation (OCRC) (operating as the Ontario Cannabis Store [OCS]), the BC Liquor Distribution Branch (BCLDB), Alberta Gaming, Liquor & Cannabis (AGLC), the Saskatchewan Liquor and Gaming Authority (SLGA), and the Manitoba Liquor and Lotteries Corporation.

\*Availability of strains / formats may vary by province.

## PLANS FOR THE FUTURE

- Pure Sunfarms is converting a second 1.1 million square foot greenhouse for cannabis production, which is expected to double annual output capacity to 150,000 kilograms.
- The company also holds an option on an additional greenhouse facility, currently owned and operated by Village Farms, which could further increase total production area by approximately 2.6 million square feet.
- The company is working to develop onsite cannabis extraction capabilities in order to expand into cannabis oils and derivative products.

- Pure Sunfarms received Health Canada approval in March 2020 to operate a 65,000 square foot state-of-the-art processing center designed to satisfy full European Union GMP compliance and certification requirements.
- Pure Sunfarms is currently looking at securing additional provincial supply agreements across Canada.
