

PURE
SUN FARMS

Laboratory Sampler

Job Profile

Driven by a love of plants, Pure Sunfarms is one of Canada's largest, single-site, licensed producers of high-quality, greenhouse-grown cannabis based in BC's Fraser Valley (Delta). We are proud to bring together individuals from a wide breadth of industries, backgrounds, and experiences, and promote a culture of belonging where everyone can truly be themselves – in every form of expression that is natural to them. This is our priority and guiding light at Pure Sunfarms, driving our uncompromising approach to quality and success within the Canadian recreational cannabis market. We believe our differences are our strengths, letting us look at cannabis in a whole new light.

ESSENTIAL FUNCTIONS

- Following good lab practices to make samples from different cannabis products like dried cannabis flower, trim, extraction products (i.e., like oils, tinctures, and distillates)
- Coordinating and collaborating with production and warehouse teams for prepping the samples and depositing them for further processing on timely schedule
- Performing water sampling from different areas of plant and ditch water to examine the environmental factors
- Keeping track of Chain of Custody documents, filling batch sampling form and requisition forms, printing labels, and making sure that samples matches paperwork
- Updating logbooks and excel worksheet for proper documentation
- Following up with external laboratory for any missing routine reports and results
- Prepping dry cannabis sample using grinder and homogenizer using standard operating procedure
- Working under laboratory setting with strict adherence to deadlines
- Transferring data from reports into excel sheets and into inhouse certificate of analysis
- Identifying out of trend and out of specification data and informing Quality team for further investigation
- Operating grading station for cannabis

OTHER DUTIES

We work in a fast pace environment, rolling up our sleeves to build something bigger than ourselves. Other duties may arise from time to time/most of the time and as a team, we look to support each other.

Laboratory Sampler

Job Profile

YOUR BRAND, YOUR STORY

We already know you love working in a lab, but we want to know more about your strengths. Your qualifications include the following:

- Post-Secondary graduate in Chemistry, Science, or a related field
- 0 - 1 years of relevant work experience in a lab or related experience preferred
- Strong analytical and mechanical skills
- Ability to perform routine bench tests
- A willingness to learn
- Must be able to read, understand and follow work instructions in a safe, accurate and timely manner
- Demonstrate good verbal and written communication skills
- Ability to work well with others & independently
- Proven time management skills and a strong attention to detail

At Pure Sunfarms, we are growing our team with the same care we devote to growing our plants. We are proud of the diverse and inclusive culture that we've built and are excited to learn more about your experiences and how you can contribute to Pure Sunfarms and the cannabis industry.
