ABOUT PURE SUNFARMS

Located in Delta, British Columbia, Pure Sunfarms is one of Canada's largest, single site, licensed producers of high-quality, greenhouse-grown cannabis. With decades of growing experience and 1.1 million square feet of best-in-class greenhouse operations, the company has capacity to produce 75,000 kilograms of dried flower annually for the Canadian recreational market.

Current supply agreements in place include the Ontario Cannabis Retail Corporation (OCRC) (operating as the Ontario Cannabis Store (OCS)), the BC Liquor Distribution Branch (BCLDB), Alberta Gaming, Liquor & Cannabis (AGLC), the Saskatchewan Liquor and Gaming Authority (SLGA), and most recently, the Manitoba Liquor and Lotteries Corporation. Pure Sunfarms also provides cannabis to other Licensed Producers in Canada.

Pure Sunfarms is converting a second 1.1 million square foot greenhouse for cannabis production, which is expected to double annual output capacity to 150,000 kilograms. The company also holds an option on an additional greenhouse facility, currently owned and operated by Village Farms, which could further increase total production area by approximately 2.6 million square feet.

Pure Sunfarms is a wholly-owned subsidiary of Village Farms International, Inc.
